

**CLARION® PM HI-TEMP
FOOD MACHINERY 100 GREASES**

Date 03/12

DESCRIPTION: Clarion PM Hi-Temp Food Machinery 100 Greases are specifically blended for grease lubrication of machinery used in the food industry. They are high temperature, extreme pressure (EP) and water resistant greases. These NSF H1 registered greases are compliant with FDA 21 CFR 178.3570 and are suitable for incidental food contact.

- QUALITIES:**
- Superior Four-Ball EP and anti-wear
 - Excellent rust protection
 - Oxidation inhibited
 - Good high temperature properties
 - Good adhesion/cohesion properties
 - Excellent resistance to the effects of water
 - NSF H1 Registered

APPLICATIONS: Clarion PM Hi-Temp Food Machinery 100 Greases are suitable for rolling element and plain bearings and works in automatic and centralized lubrication systems. These greases provide excellent water resistance and effective resistance to corrosion even in the presence of water.
